

Peigo® Employer Solutions

Now you have a partner that can solve your clients' employee-related compliance requirements all at once. No more expensive payroll. No more workers compensation audits. No more headaches. Sometimes, the big picture requires assembly...when it does, it helps to have the right parts...and the right partner.

Great companies need great employees. The work required to take care of those employees can often be enormous. Simply paying employees brings tax and regulatory requirements that can overwhelm a business. W-2's, W-3's, W-4's, 1099's, 940's, 941's. Figuring them out can be expensive and time-consuming. Yet, once the payroll riddle is solved, businesses must still address certain insurance requirements. Most states require some form of workers compensation insurance, whether state-managed or otherwise, and insurance carriers require the companies payroll information to determine the insurance premium. Changes to staffing can and do affect the premiums paid. Oftentimes, the business won't realize the impact of those changes until after the insurance carrier performs an audit. But, what if there was a solution that addressed these challenges at the same time? With Peigo® you can:

- Pay employees.
- Make required tax payments automatically.
- Determine the workers compensation premium.
- Pay the carrier on a pay-as-you-go basis.

FLEXIBLE PAYROLL OPTIONS

Payroll presents multiple challenges. You must ensure your employees get paid while complying with state and federal requirements for withholding. Traditionally, employees received a paper check. Now, Direct Deposit is preferred. It is now possible to deposit a paycheck directly onto a VISA-branded stored value card that can be accessed from anywhere, helping those employees that do not have bank accounts. With Peigo, you can rest assured that you have a partner that will take care of your clients' employee-related compliance requirements in a manner that is convenient for them and their employees.

PAY-AS-YOU-GO WORKERS' COMPENSATION

One of the biggest advantages that those large payroll companies have over agencies like yours is the ability to offer pay-as-you-go workers' compensation. Their policyholders aren't required to pay deposits, finance premiums or suffer through an end-of-year audit. If you had a partner that provided a low-cost payroll alternative and access to pay-as-you-go workers' compensation, how much more competitive would you be? Peigo is that partner. We will help you earn business today without risking your business tomorrow.
